WINTER AVERAGING PERIOD

December to March is the winter averaging period for residential customers which means that your sewer consumption charges are based on your metered water consumption. At the end of this period, the billing system takes your average monthly consumption for those 3 months and sets that as your sewer “max”, which is the maximum monthly sewer consumption you will be charged for the remainder of the year regardless of how much your metered water consumption is. Please report any leaks, outside watering or open taps by completing and submitting a Winter Average Re-Evaluation Request within 30 days of the end of your winter averaging period. For more information, please contact the District office at 775-673-2220.

VETERANS CELEBRATION

On November 4, 2023, the District held its annual Veterans Appreciation Celebration in partnership with Washoe County Human Services. Giveaway bags included information and resources from the District, Reno Veterans Center, Veterans Upward Bound, Adopt-a-Vet Dental Program, VA Health Center and Senator Jackie Rosen. The District would like to thank Washoe County Human Services for providing the biscuits and gravy breakfast, and to the representatives of various veteran agencies in attendance. A special thank you to the veterans and their family members who made the event a success.

RADON DETECTION MONTH

The District proclaims January as Radon Detection Month. Radon is a naturally occurring radioactive gas released in the ground from the natural decay of uranium. It is the primary cause of lung cancer among nonsmokers. Customers can pick up a FREE radon detection kit at the District's office during the months of January and February while supplies last. For more information on Radon, please contact the University of Nevada, Reno Extension at 775-336-0252 or visit radonnv.com.
