

JOB DESCRIPTIONS

FIELD

SERVICE TECHNICIAN ENTRY LEVEL

Department: Field Operations
FLSA Status: NON-EXEMPT
Classification: Safety Sensitive
Accountable To: Public Works Director
Evaluated By: Field Supervisor

DEFINITION: This is an entry level position during which time the employee will be exposed to all aspects of the District's Field Operations in preparation for advancement to Service Technician I. Under the supervision of a certified operator, performs basic tasks on the operation and maintenance of the Districts water distribution system, wastewater collection system, parks, equipment and facilities.

DISTINGUISHING CHARACTERISTICS: Incumbents perform general laborer non-technical duties while learning operational policies and procedures. The Service Technician Entry Level class differs from the Service Technician I class in that the latter is given more technical tasks, is expected to perform with less supervision and is required to make independent decisions on limited basis.

ESSENTIAL FUNCTIONS: *(Performance of these functions is the reason the job exists. Assigned job tasks/duties are not limited to the essential functions).*

1. Must agree to perform to the best of his/her ability any and all tasks assigned.
2. Perform water meter installations and disconnects. In addition install and troubleshoot MXU / FLEXNET (meter transceiver units).
3. Assist in the repairs on water distribution and wastewater collection systems. Dig, carry materials, identify parts and use a compactor.
4. Assist in installations of the water distribution and wastewater collection systems.
5. Participate in 24-hour, seven day a week on call service for water service emergencies (to evaluate ability to perform required tasks).
6. Carry out service orders to completion.
7. Read meters as scheduled using remote read equipment and associated components.
8. Clean and inspect sewer mains, manholes, laterals and clean-outs with the use of hand and mechanized equipment
9. Perform general maintenance on parks and facilities to include graffiti removal, painting, landscaping, building repairs and janitorial duties.

10. Perform the care, maintenance, and safe operation of equipment used in assigned work. In addition maintain inventory of tools and parts needed for necessary operation, maintenance, and repairs of the water and wastewater facilities.
11. Continually develop expertise in operation of all field equipment.
12. Learn all aspects of safety, District guidelines and OSHA requirements pertaining to the tasks within the scope of this position.
13. Assist the Public Works Director as directed.
14. Perform other duties as assigned.

QUALIFICATIONS FOR EMPLOYMENT:

Knowledge and Abilities:

Knowledge of

- Basic construction;
- Tools used in the repair and maintenance of water and wastewater systems;
